

Florida is home to more than 1.5 million veterans of the United States Armed Forces. The Department is committed to providing services and resources for veteran health care practitioners and their spouses.

It is our continued goal to make Florida the most veteran friendly state in the nation.

ABOUT US :

In 2023, Governor Ron DeSantis signed House Bill 139, establishing the Office of Veteran Licensure Services (OVLS) within the Division of Medical Quality Assurance (MQA) to assist veterans and their spouses with the health care licensure process.

In addition to licensure, OVLS facilitates a referral program with Veterans Florida to assist veterans and their spouses with obtaining training, education, and employment in Florida's health care professions.

OFFICE OF VETERAN LICENSURE SERVICES

The Florida Department of Health (Department) is committed to honoring veterans, active-duty service members, and their families.

By implementing special fee waivers and expedited licensing, the Department can better assist service members as they grow in their career, wish to practice while stationed in the state, or settle in Florida at the end of their service.
